

Nordic Syndicate Membership Charter

1. Purpose

This membership credential confirms participation within an investment community ecosystem and provides access to programmes, resources, events and community initiatives.

2. Membership Rights

Members may receive programme access, community participation, educational resources, networking opportunities, ecosystem communications and governance participation where enabled.

3. Participation Framework

Membership is intended to encourage active participation, collaboration and ecosystem growth. Members may contribute through programmes, working groups, mentorship, partnerships and community initiatives.

4. Digital Membership Credential

Membership may be represented through a blockchain-based Soulbound Token (SBT). The credential serves as proof of membership and may be linked to participation rights and future governance initiatives.

5. Governance

The issuer may enable polls, voting, advisory decisions, programme selection or other governance mechanisms. Governance rights may evolve over time.

6. Membership Status

Membership may be Active, Suspended, Expired or Revoked. The issuing organisation maintains the membership registry and participation records.

7. Code of Conduct

Members are expected to act professionally, respect community guidelines and contribute positively to ecosystem activities.

8. Credential Information

Credential Type: Membership Badge

Category: Syndicate Membership

Transferability: Non-transferable (Soulbound)

Framework: EDGE Participation Infrastructure
