

ISSURA INVESTOR ALLOCATION AGREEMENT

Innovation Capital Pool

Version 1.0

Demo / Test Document

1. Purpose

This Investor Allocation Agreement describes the recorded participation of an investor in the Innovation Capital Pool.

The pool is presented as a private-market investment structure focused on innovative technology companies and scalable solutions.

This document is a demonstration document for the Issura platform and does not constitute a public offer, solicitation or commitment to accept an investment.

2. Investment Structure

Pool: Innovation Capital Pool

Structure: Alternative Finance

Model: Bilateral SPV

Jurisdiction: Denmark

Indicative pool size: EUR 10,000,000

3. Investor Allocation

Participation may be established through an allocation recorded by the pool administrator.

The investment record may contain the investor's:

- identity;
- allocation;
- participation percentage;
- investment date;
- capital changes;
- transaction history; and
- recorded position value.

4. Investment Certificate

Issura may produce an investment certificate corresponding to the recorded allocation.

The certificate provides a portable representation of the investment position and may reference the supporting documentation associated with that position.

The certificate does not independently determine the legal status or economic value of the investment.

5. Documentation and Integrity

Underlying investment documents may be stored or referenced as part of the investment record.

Where document integrity verification is enabled, Issura may maintain a cryptographic hash of the registered document.

The hash is used to compare the integrity of a document against the version previously registered.

6. Valuation

The displayed position value may be calculated using the investor's recorded allocation and the latest recorded valuation of the relevant investment vehicle.

Issura is an administrative and evidentiary system and does not independently guarantee the valuation of underlying assets.

7. Compliance

Participation is subject to applicable investor eligibility, KYC procedures and investor policy.

8. Transfer

The demonstration configuration specifies a non-transferable participation.

Any actual transferability would be governed by the applicable legal documentation.

9. Administration

The pool administrator may use Issura to maintain:

- investor allocations;
- investment positions;
- transaction history;
- valuation records;
- supporting documentation;
- document integrity references; and

- investment certificates.

10. Demonstration Status

This agreement is a demonstration document created for testing Issura.

It does not constitute an offer, solicitation, investment recommendation or legally binding commitment to invest.
