

EDGE Alliance
AI & Automation Club Membership Charter

1. Purpose

This membership credential confirms participation within the AI & Automation Club and provides access to community initiatives, networking opportunities, educational resources and ecosystem activities.

2. Membership Rights

Members may receive access to community discussions, events, ecosystem communications, educational programmes and governance participation where enabled.

3. Participation Framework

Membership is intended to encourage collaboration, knowledge sharing and ecosystem growth. Members may contribute through working groups, partnerships, mentorship and community initiatives.

4. Digital Membership Credential

Membership may be represented through a blockchain-based Soulbound Token (SBT). The credential serves as proof of membership and may be linked to participation rights and future governance initiatives.

5. Governance

The community administrator may enable polls, voting, advisory decisions or other governance mechanisms. Governance rights may evolve over time.

6. Membership Status

Membership may be Active, Suspended, Expired or Revoked. Participation records are maintained by the community administrator.

7. Code of Conduct

Members are expected to act professionally, respect community guidelines and contribute positively to ecosystem activities.

8. Credential Information

Credential Type: Membership Badge
Category: Investor Club Membership

Transferability: Non-transferable (Soulbound)
Participation Infrastructure: EDGE Alliance

9. Disclaimer

This membership credential represents participation within a community ecosystem.

The credential does not represent securities, ownership interests, investment rights or financial claims.

EDGE Alliance provides participation infrastructure and community administration. Any regulated investment activities remain the responsibility of the relevant organizations and their qualified partners.
